

Rebecca's Colossians 2: 14 Cross

I used size 30 (my fave size 😊) and the finished dimensions are aprox. 2.25" by 3.75" . I tat tightly, on a smaller needle, so that may affect the finished size. This was done on a size 8 needle.

ok, here goes then....

That's my best attempt at longhand 😊🌸 If you find any errors, I apologize in advance - and please do let me know so that I may correct them.

Thanks!

Suggestions for shuttle tatters:

When using 40 thread, decrease the outside chains from 8 to 6 to reduce the “leggie” ness of the look.

Use either rings thrown off the 2nd shuttle or try using SMCR technique to create the outer rings.
